

Trailside Bike Park Conditions of Use

Trailside Bike Park is a gravity-oriented, downhill and freeride mountain biking facility. The Park requires a much broader skill set than mountain biking on singletrack.

1. Trailside Bike Park is an unsupervised facility. You assume the risk of injury that may occur while riding in the bike park.
2. Always inspect the trails before riding them. Features can be dangerous in any condition but users should be aware of changing conditions throughout the day.
3. Helmets are required at all times. Additional protective equipment, such as a full-face helmet, knee pads, elbow pads and biking gloves, is strongly recommended.
4. Ride in control and within your ability level. Do not attempt any of the trails or features unless you have sufficient ability and skill to do so safely.
5. The Bike Park is not recommended for first time riders. If you are new to downhill and freeride terrain, it is encouraged that you seek professional instruction.
6. Before riding, always inspect your equipment or have it checked by a qualified bike mechanic. Bikes should be well-maintained and in excellent mechanical condition. Cross-country bikes are inappropriate for the Park.
7. Do not ride on closed or muddy trails.
8. Stay on trails, riding or pushing bikes off trail destroys natural vegetation.
9. Modification of trails or features is strictly prohibited.
10. Follow all directional trail signage. Some trails are for downhill riding only. Uphill riding and hiking is prohibited on these trails. No walking/hiking on designated downhill trails.
11. Be aware of wildlife and other trail users at all times.
12. Please utilize all recycling and waste containers.
13. Please call (435) 649-1564, ext. 19 for any maintenance issues.
14. For emergencies, call 911.

If you are an organized group, commercial enterprise, tour, or event, please contact (435) 649-1564 to obtain a permit.
